OUR APPROACH

CONSULTATION

Multiple discussion session and draft plans.

PLANING

Extensive solutions to organize, schedule, and coordinate tasks, ensuring the success of the project.

STAFF ACQUIRING

Places job advertisement and redirect seekers to apply on our registration system.

Registration system sample

DATA ANALYSIS

Creating applicant criteria sheet then analyze data and prepare a list of those who matches the criteria sheet.

Criteria request sample

INTERVIEWS

Schedule interviews with applicants and contact each of them with interview date and address information.

SELECTION

Make a list of the best applicants for the job then make a backup list in case of emergency.

TRAINING & BRIEFING

Schedule training and briefing sessions for all of the team.

Briefing session sample

EVOLUTION

After training and briefing session team leaders and trainers and evaluate team members and make changes if needed before the event.

ROSTERING

Assigning tasks and duties to team members.

OPERATION

Overseeing resources during the event and remaining on standby for any emergencies.

QUALITY CONTROL

Systematic processes and measures implemented to ensure that the services meet the standards.

FEEDBACK & BEST PRACTICES REPORT

After the event, survay and other feedback methods provide solid data for the final report.
